TO ALL SALESMEN

Toppenish, Wash., Jan. 4, 1913.

SHORT LIST.

You may sell all stock listed in your catalog with the following exceptions and changes as noted. This is a rather limited short list compared with some we have been compelled to send out in previous seasons; in other words, we still have a splendid lot of varieties in the catalog from which to sell.

APPLES:

OUT:

Duch. Oldenburg
Winterstein

Sell the following in 3-4 ft.
only, at 4-6 ft. prices:

Flemish Beauty
Winter Bartlett
Crocker Bartlett

Sell the following in 3-4 ft.
only, at 4-6 ft. prices:

Bartlett
Duch. d'Angouleme
Howell
Idaho
Worden Seckel

Instead of the Winter Bartlett and Crocker Bartlett, we suggest that you endeavor to sell the Easter Beurre, which you will find described as a most excellent pear and which is one of the latest keeping pears in the list, in general satisfying those who want a really winter pear. Our 3-4 ft. Bartlett are remarkably well calipered, in fact, are a 4 ft. and up pear in everything but height, so you may sell these conscientiously as being unusually strong grades.

PEACHES (cont)

We suggest that you put a circle check "O" in your catalog
opposite the names of any of these varieties which you cannot
conveniently remember, so when you sell from the catalog you will
guard against taking orders for stock of which we are out.

This list if kept pasted in your price book will be a ready
reminder. You can nearly always induce the customer to take some-
thing else from such a large assortment as we list. Bear in mind
that few nurseries in the West grow or sell half as long a list
of varieties as we do. You are fortunate in this respect. Make the
most of it, call attention to the good assortment yet remaining
and you will find your sales keeping up.

Push the staple apple and pear particularly, also the specialties
and the ornamental stock. It pays to introduce these two latter
items every time. Many a customer having ordered all he thinks
he will need can be induced to buy some choice variety at a special
price and will thank you for having introduced it. The same is
true of shade and ornamental stock, particularly roses and shrubbery.
